Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6 and 13-16, drawn to a first cabinet, classified in class 211, subclass 13.1.
 - II. Claims 7-12 and 17-26, drawn to a second cabinet with a battery storage drawer/method of storing, classified in class 429, subclass 99.
2. The inventions are distinct, each from the other because of the following reasons: Group II includes a battery storage drawer, which element is not part of the Group I cabinet. In addition, Group II includes flow openings that allow air to flow through the said drawer.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Warren Sklar on both August 19 and August 20, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1745

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
